

# Grant Hyun Park

16 Barrett Hill Dr, AC#0769 Keefe Campus Ctr - Amherst, MA 01002 | [gpark18@amherst.edu](mailto:gpark18@amherst.edu) | (256) 690-3141

## EDUCATION

### Amherst College

Bachelor of Arts | Computer Science & Music | GPA: 3.80/4.00

Amherst, MA | May 2015 - Present

#### Relevant Coursework:

Programming Language Paradigms

Data Structures and Algorithms I & II

Computer Systems I & II

Web Programming

iOS App Development/Shipment (at MakeSchool in San Francisco, Summer 2015)

## EXPERIENCE

### Mobile Development Freelancer

[www.granthpark.me](http://www.granthpark.me)

Amherst, MA | May 2015 - Present

I build scalable iOS applications for clients both remote and local in respect to MA. I have two years of experience writing highly maintainable source code and have built and shipped 6 applications for iPhone and iPad that offer users an intuitive and friendly interface. Github: <https://github.com/sungjp>

### iOS Engineer

Dangle

San Francisco, CA | Oct 2015 - Present

Full-stack development with Swift and AWS. I built and shipped the company's first iOS product from start to finish. I now maintain scalability, unit testing, performance, and data efficiency. I also provide UI/UX solutions through wireframing and prototyping.

### Director and Web Developer

Rocket City Math League

Huntsville, AL | Aug 2010 - Jun 2014

Developed user registration; added security to check the validity of school CEEB codes using the Google Maps API; mentored and guided test graders, creators, and editors; and headed several math camps hosting week-long classes for youths from ranging from algebra to calculus.

## AWARDS

### National Science Bowl

U.S. Department of Energy

Apr 2014

Won 1st place at state level with three other team members and traveled to Washington D.C. to compete nationally among over 10,000 students. Topics covered included discrete mathematics, biology, chemistry, earth sciences, and physics.

### 1st Place TEAMS Engineering Competition

Auburn University

Nov 2013

Placed 1st in the state for collaborative problem solving in mathematics, chemistry, and computational engineering.
